THE 100TH ANNIVERSARY OF THE MONTHLY CATALOG

This year, 1995, marks the one hundredth year of publication for the ***Monthly Catalog of United States Government Publications.*** In the preface of the January 1895 issue the Superintendent of Documents, Francis A. Crandall, expressed the hope that it would be the "initial number . . . [in] . . . a long series of official Monthly Catalogues."

Over the years many changes have taken place. The ***Monthly Catalog*** originally was known as the ***Catalogue of Publications Issued by the Government of the United States.*** In April 1895 the name was changed to ***Catalogue of United States Public Documents.*** Other title changes occurred before the current title was selected in 1951. The organization of the January 1895 issue was somewhat similar to the current issues in that citations for publications within the catalog were grouped by the Federal organizations publishing them; however, this catalog did not include an overall arrangement by GPO classification number.

A dramatic change took place in 1976, when ***Anglo-American Cataloging Rules*** were first used to catalog publications appearing in the ***Monthly Catalog.*** Availability of the ***Monthly Catalog*** in electronic formats, first on tape and later in other formats, has enabled GPO to make information on Federal documents available to a greater number of people. Over the years the ***Monthly Catalog*** has been useful to the public, depository librarians, and to those in government. With the advent of the "information age," many changes in the way the Federal government provides information to its citizens have taken place. The need to inform citizens about their government will continue. We expect that the ***Monthly Catalog,*** in various media, will continue to function as a primary resource for identifying and locating information published by Federal agencies.

Those of us responsible for the ***Monthly Catalog*** are proud to be associated with this effort:

USERS' GUIDE

Catalog Arrangement and Indexes

The bibliographic entries in the *Monthly Catalog* are arranged in Superintendent of Documents classification number order. Each record is also assigned a unique catalog number, which consists of a two-digit prefix representing the catalog year, followed by a sequential number beginning with 1 in the first issue of each year. Within this arrangement, the publications of each Government author are further identified by the name and address of the issuing agency.

Catalog entries may be accessed by the following indexes:

Author index: An alphabetical list of personal authors, editors, co-authors, corporate authors, and conferences.

Title index: An alphabetical list of titles proper, subtitles, and alternate titles.

Subject index: An alphabetical list of subjects derived from the *Library of Congress Subject Headings.*

Series/Report index: An alphabetical listing of series statements and tracings, series numbers, and report numbers.

Contract number index: An alphanumeric list of contract, grant, and project numbers associated with technical report publications. Abridged cataloging records are not accessible by contract number.

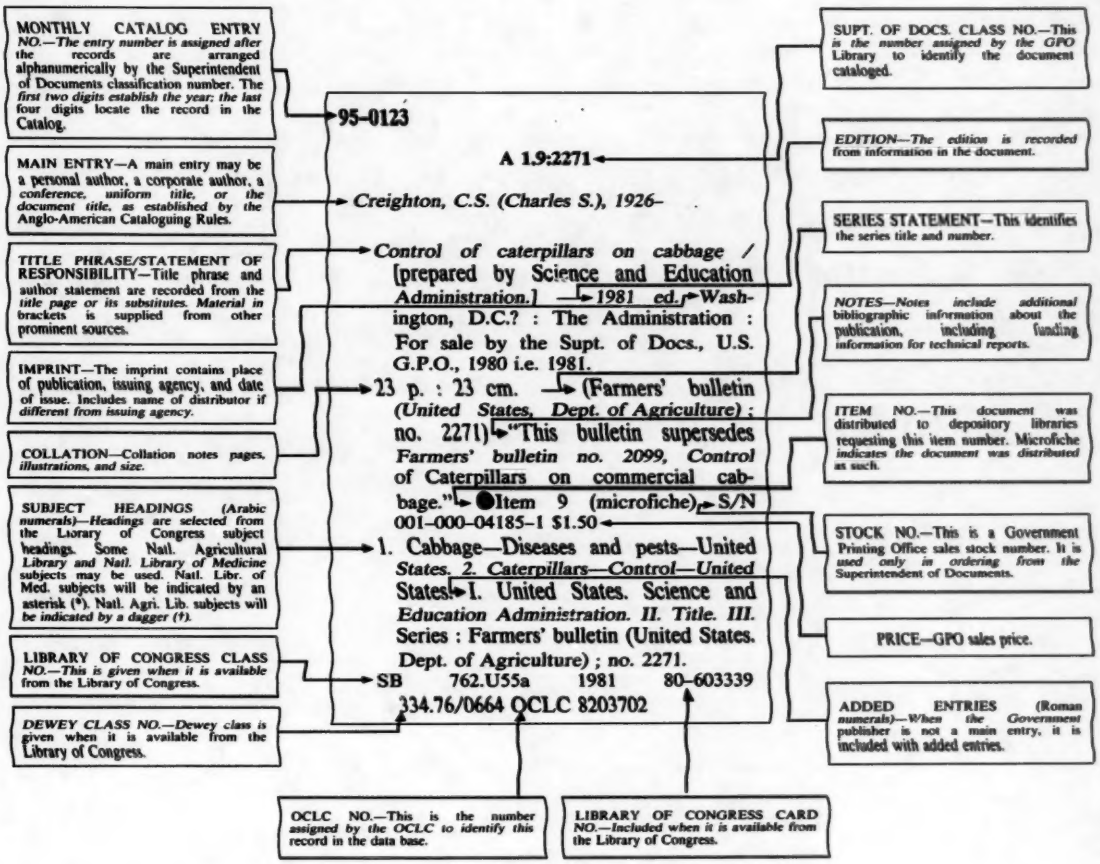
Stock number index: An alphanumeric list of Superintendent of Documents and other sales stock numbers.

Title keyword index: An alphabetical list of truncated titles, arranged by important words selected from publication titles.

A **margin index** on the back cover locates the seven indexes. Listings in all of the indexes are followed by the catalog entry number, which refers the user to the complete bibliographic citation. Listings in the **title** and **subject indexes** are augmented with the publications' author and classification number to enhance identification and retrieval. Cumulative indexes are published semiannually, annually, and quinquennially, and in addition the indexes listed above, include a **Classification number index** for all the publications listed during the period of cumulation.

Abbreviations

The abbreviations used in the bibliographic records in the catalog are those described in the *Anglo-American Cataloguing Rules,* 2nd ed., and the *GPO Classification Manual: A Practical Guide to the Superintendent of Documents Classification System.*



List of Government Authors

This alphabetical list in the preliminary pages of each catalog locates the beginning of the sequence of entries of documents issued by a specific agency. The list is compiled each month and contains only Government authors of documents included in that *Monthly Catalog* issue.

SAMPLE ENTRY

Monthly Catalog descriptive cataloging entries follow the precepts of the *Anglo-American Cataloguing Rules*, 2nd ed., 1988 revision, the Library of Congress Rule Interpretations, the *GPO Cataloging Guidelines*, and the several pertinent *OCLC format documents. All name and series authorities are in AACR2 format*, and are established through the Library of Congress National Coordinated Cataloging Operations Project *(NACO). The subject headings used in the GPO cataloging are derived from the Library of Congress Subject Headings*, 14th ed.

The following sample entry is an artificial, composite record, designed to illustrate the major features of a Monthly Catalog bibliographic citation.

Two 6-year cumulations have been produced. The first was published in 1980 and is known as the Exhausted GPO Sales Publications Reference File (EPRF). It includes 25,000 items which went out-of-print at GPO between 1972 and 1978. The second, known as the Out-of-Print PRF *(OPRF), was published in 1986. It contains 35,000 titles which went out-of-*print between 1979 and 1984. The EPRF and the OPRF continue to be supplemented each year. FEDERAL DEPOSITORY LIBRARY PROGRAM

The Federal Depository Library Program was established by Congress to provide free public access to Government publications. Nearly 1400 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Fifty-three of the libraries are designated as regional depository libraries. They have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions. They also assist the other depository libraries with the disposal of obsolete material.

Copies of documents no longer available through the GPO Sales Program can usually be found in regional depository collections. A complete listing of regional depositories follows. To obtain a complete listing of all depository libraries, write to:
